President's Desk

"I believe that imagination is stronger than knowledge.

That myth is more potent than history.

That dreams are more powerful than facts.

That hope always triumphs over experience.

That laughter is the only cure for grief.

And I believe that love is stronger than death."

-Robert Fulghum

The **HOPE FOUNDATION**, since the time of the establishment in 2000 aims to shoulder and promote with the social responsibility of enhancement of the neglected communities of the society and to increase the social and academic participation in order to provide a sense of independence with confidence. Being felicitated with the noble post of the president of the organization, I am feeling extremely obliged and convinced to be truthful and remain honest towards my duties.

The foundation envisages to remain committed and accomplish the goal of creating the sphere where everyone particularly the excluded groups of the society, those despite of having ample intellect and calibre are pushed behind the queue because of the dearth of the necessary facilities needed to live life with dignity and self-pride.

The **HOPE FOUNDATION**, a leading non-profit organization, has been a strong foundation, comprises of several departments to proffer the every minute help to each person from different bands of society having academic and moral skills to put a step ahead towards excellence. To this point, the foundation is bestowed with the accolades and praise from the government and non-government sectors.

Bihar, is one of the state of India sharing the reputation of being rich in environmental resources. Apart from the facts those with the people are acquainted with, the far situated zones of the state are still deprived of electricity and other basic amenities of life. And to the contrary, it is the state from where the world witness every year maximum number of most engineers, civil services employees who are bearing the virtuous responsibility to minimise the burden of poverty and ignorance among the non-recognizable levels of the society.

Analysing and keeping the facts together, the foundation has set the ambitious objective to celebrate coming decade as the liberation decade aiming to fully mainstreaming all people into the development processes by ending the all community biased practices of caste based on any sort of discrimination in the country. To realize our motives, we continue to work and call for larger collective efforts from all sectors, including government, political parties, civil society, UN, private sector, media and international development partners among others.

This plan further provides a more organized and systematic approach for achieving the overall goal of eliminating socially based discrimination and inequity. Therefore, the organisation would like to appeal all the citizens to provide their valuable and meaningful support for its successful implementation in the days ahead.

Thanking you

INTRODUCTION

To begin with

Correct spelling and the use of a vocabulary appropriate to the situation in which the communication takes place is essential. The use of incorrect spellings and applying inapt technical words will make the reciprocation of expressions ignorant. The selection of improper words may cloud or obscure the meaning the one wishes to convey.

The praxis of employing word processors and presentations are considered as proficient in the use of the applications' spell checkers, thesauri and grammar checkers. Nonetheless, careful proof reading is always preferred which will not flag a correctly - spelled word used incorrectly.

THE DIRECTIVES OF SPELLING

The spelling rules are worth learning ; others are too complicated or have too many exceptions. Having focus on learning rules which addresses the particular spelling problems is always beneficial. The following points will provide on the rules for building new words:

1. Words for discussing spelling
2. Ten common spelling rules

1. WORDS FOR DISCUSSING SPELLING

- **VOWELS**—a, e, i, o and u are vowels. **CONSONANTS**—the other 21 letters of the alphabet.
- **PREFIX**—element added to the front of a word (e.g. un/in=not, pre=before, anti=against)
- **SUFFIX**—element added to the end of a word (e.g. -ing, -able, -ed, -ly, -ful, -ment, -tion)
- **SYLLABLE**—a word or section of a word with a single sound (e.g. read, fa_mous, dif_fi_cult)
- **STRESS**—the emphasis given to a syllable (see underlined syllables: famous, focus, occur, infer)

2. Ten common spelling rules

Rule	Examples	Memorise
1. 'ie' or 'ei' 1. Write <i>i</i> before <i>e</i> , except after <i>c</i> 2. Write <i>ie</i> after <i>c</i> for words with a <i>shen</i> sound. 3. Write <i>ei</i> when the vowels sounds like an <i>a</i> as in 'weigh'	1. achieve, believe, friend receive, receipt, perceive 2. ancient, efficient, sufficient, conscience 3. neighbour, vein, reign, rein, deign	Exceptions: Words like counterfeit, either, neither, height, leisure, forfeit, foreign, science, species, seize, weird
2. 's' or 'es' 1. Add <i>es</i> if a word ends in <i>ch, sh, ss, x</i> or <i>z</i> 2. Add <i>es</i> for most words ending in <i>o</i>	1. arch > arches, clash > clashes, class > classes, box > boxes, quiz > quizzes 2. tomato > tomatoes, hero > heroes, go > goes, do > does, echo > echoes	Exceptions: Words like altos, duos, pianos, radios, solos sopranos, studios, videos, typos
3. 'y' to 'i' or not 1. For words ending in <i>y</i> preceded by a vowel, retain the <i>y</i> when adding <i>s</i> or a suffix. 2. For words ending in <i>y</i> , retain the <i>y</i> when adding <i>ing</i> . 3. For words ending in <i>y</i> , preceded by a consonant, change the <i>y</i> to <i>i</i> before any other suffix	1. convey > conveys, employ > employer 2. try > trying, justify > justifying, certify > certifying, study > studying 3. try > tried, justify > justifies, certify > certifiable, mystify > mystified, laboratory > laboratories	Exceptions: Words like dryness, shyness

<p>4. drop the final 'e'</p> <p>1. DROP the <i>e</i> when the suffix starts with a vowel.</p> <p>2. DROP the <i>e</i> when the word ends in <i>dge</i>.</p> <p>3. DROP the finale <i>e</i> when adding <i>-ing</i></p>	<p>1. save > savable, use > usable</p> <p>2. judge > judgment</p> <p>3. save_ > saving, manage > managing, trace > tracing, emerge > emerging</p>	<p>Exceptions: DO NOT DROP the <i>e</i> if the word ends in <i>ce</i> or <i>ge</i> (e.g. <i>manage</i> > <i>manageable</i>, <i>trace</i> > <i>traceable</i>)</p>
<p>5. 't' or 'tt' when adding -ing, -ed and some suffixes to verbs</p> <p>1. DOUBLE the <i>t</i> for verbs of one syllable with a single vowel, or a short vowel sound.</p> <p>2. DOUBLE the <i>t</i> for verbs of more than one syllable when the stress is on the last syllable.</p>	<p>1. rot > rotting, rotted, rotten fit > fitting, fitted knot > knotting, knotted</p> <p>2. abet > abetting, abetting allot > allotting, allotted commit > committing, committed emit > emitting, emitted forget > forgetting, forgotten (but forgetful)</p>	<p>Exceptions: DO NOT DOUBLE the <i>t</i> for verbs of one syllable with a double vowel or a long vowel sound (e.g. <i>treat</i> > <i>treating</i>, <i>treated</i>; <i>greet</i> > <i>greeting</i>, <i>greeted</i>)</p>
<p>6. 'f' or 'rf' when adding -ing, -ed and some suffixes to verbs</p> <p>1. DOUBLE the <i>r</i> for verbs of one syllable when the final <i>r</i> is preceded by a single vowel.</p> <p>2. DOUBLE the <i>r</i> for words of more than one syllable when the stress does not fall on the first syllable.</p>	<p>©star > starring, starred, starry tar > tarring, tarred war > warring, warred (but warfare) scar > scarring, scarred stir > stirring, stirred</p> <p>©concur > concurring, concurred, concurrence occur > occurring, occurred, occurrence defer > deferring, deferred, (but deference) deter > deterring, deterring, deterrent infer > inferring, inferred, (but inference) prefer > preferred, preferring, (but preference) refer > referred, referring, referral</p>	<p>Exceptions: DO NOT DOUBLE the <i>r</i> for verbs of one syllable when the final <i>r</i> is preceded by a double vowel (e.g. <i>fear</i> > <i>fearing</i>, <i>feared</i>) DO NOT DOUBLE the <i>r</i> for words of more than one syllable, when the stress falls on the first syllable (e.g. <i>prosper</i> > <i>prospered</i>, <i>prospering</i>)</p>

Rule	Examples	Memorise
7. I or 'l' when adding -ing, -ed and some suffixes to verbs DOUBLE the <i>l</i> when it is preceded by a single vowel.	cancel > cancelling, cancelled, cancellation enrol > enrolling, enrolled (but enrolment) fulfil > fulfilling, fulfilled, fulfillment level > levelling, levelled travel > travelling, travelled, traveller	Exceptions: DO NOT DOUBLE the <i>l</i> when it is preceded by a double vowel (e.g. conceal > concealing, concealed)
8. Dropping letters Many words drop a letter when adding a suffix, but it is not always the final letter	argue > argument; proceed > procedure; humour > humorous; disaster > disastrous; repeat > repetition; administer > administration	There is no reliable rule covering these words, so they simply have to be memorised.
9. Word endings such as able/ible, ant/ance; ent/ence	negligible, incredible, invisible, sensible, admirable, preventable, suitable, dependable attendance, ignorance, nuisance, importance sentence, difference independence, intelligence	There is no reliable rule covering these words, so they simply have to be memorised.
10. Silent letters Some words include letters which are not pronounced when the word is spoken.	advertisement, campaign, column, debt, design, doubt, gauge, ghetto, heir, knife, knowledge, island, mortgage, often, pneumatic, rhythm, solemn, subtle	There is no reliable rule covering these words, so they simply have to be memorised.

Exceptions:

Which, rich, much, such, touch, bachelor, attach, sandwich, and ostrich.

The Sound, /kw/

This sound is ALWAYS spelled with the letters, qu, never anything else.

Using -le

Words ending in -le, such as little, require care. If the vowel sound is short, there must be two consonants between the vowel and the -le. Otherwise, one consonant is enough.

li t t le	ha n d le	ti c k le	a m p le			
bo t t le	pu z z le	cr u m b le	a n g le			
bu g le	ab le	po o d le	da w d le	nee d le	id le	pe o p le

Odds and Ends

1. The consonants, v, j, k, w, and x are never doubled.
2. No normal English words ends with the letter v. A final /v/ is always spelled with ve, no matter what the preceding vowel sound may be:

have	give	sleeve	cove
receive	love	connive	brave

Adding Endings

There are two kinds of suffixes, those that begin with a vowel and those that begin with a consonant. As usual, the spelling problems occur with the vowels:

Vowel Suffixes	Consonant Suffixes		
--- age	---ist	---ness	---cess
---ant	---ish	---less	---ment
---ance	---ing	---ly	---ty
---al	---ar	---ful	---ry
---ism	---o	---hood	---ward
---able	---on	---wise	
---an	---ous		
---a	---or		

---es	---ual
---ed	---unt
---er	---um
---est	---us
---y	---ive

1. Words that end in the letter **y** must have the **y** changed to **i** before adding any suffix:

body - bodily	marry - marriage
many - manifold	family - familiar
happy - happiness	puppy - puppies
beauty - beautiful	vary - various
company - companion	fury - furious
plenty - plentiful	merry - merriment

2. In words that end in a silent **e** you must drop it before you add a vowel suffix. The silent **e** is no longer needed to make the preceding vowel long as the incoming vowel will do the trick:

ride - riding	cure - curable
use - usual	age - aging
fame - famous	force - forcing
refuse - refusal	slice - slicing
pure - purity	ice - icicle
nose - nosy	convince - convincing
globe - global	race - racist
pole - polar	offense - offensive

3. Words that end in an accented short or modified vowel sound must have the final consonant doubled to protect that sound when you add a vowel suffix:

Quebec - Quebecker	remit - remittance
confer - conferring	refer - referred
upset - upsetting	shellac - shellacking
occur - occurred	concur - concurrent

Note that this doubling is not done if the accent is not on the last syllable. If the word ends in a schwa, there is no need to “protect” it.

open - opening

organ - organize

focus - focused

refer - referee

4. Normally you drop a silent e before adding a vowel suffix. However, if the word ends in -ce or -ge and the incoming vowel is an a, o, or u, you cannot cavalierly toss out that silent e. It is not useless: it is keeping its left-hand letter soft, and your a, o, or u will not do that. Thus:

manage - manageable

peace - peaceable

courage - courageous

revenge - vengeance

surge - surgeon

change - changeable

notice - noticeable

outrage - outrageous

5. Adding consonant suffixes is easy. You just add them. (Of course you must change a final y to i before you add any suffix.)

peace - peaceful

harm - harmless

age - ageless

pity - pitiful

child - childhood

rifle - riflery

/sh/

When this sound occurs before a vowel suffix, it is spelled ti, si, or ci.

partial cautious

expulsion

/ee/ before a vowel suffix

When /ee/ precedes a vowel suffix, it is usually spelled with the letter i:

Indian obvious

medium

ingredient

zodiac

material

Spelling Determined by Word Meaning

1. Mist and missed sound alike, as do band and banned. To determine the spelling, remember that -ed is a past-tense ending.

- a. The mist drifted into the harbor.
- b. I nearly missed my bus.
- c. The movie was banned in Boston.
- d. The band played on.

2. The endings of dentist and finest sound alike. Deciding which one to use can be tricky. One rule helps but doesn't cover all cases:

- a. —**ist** is a suffix meaning someone who does something:
artist - machinist - druggist
- b. —**est** is the ending used on superlative adjectives:
finest - sweetest - longest

3. The sounds at the end of musician and condition sound alike. but....

- a. **cian** always means a person, where...
- b. **tion** or **sion** are never used for people.

4. How do you tell whether to use tion or sion?

- a. If the root word ends in /t/, use -tion: complete, completion
- b. If the root word ends in /s/ or /d/, use sion: extend, extension
suppress, suppression
- c. If the sound of the last syllable is the “heavy” sound of /zhun/ rather than the light sound, /shun/, use s: confusion, vision, adhesion

Exception: The ending, —mit becomes -mission:

permit - permission

omit - omission

submit - submission

commit - commission

The Hiss

1. The letter s between vowels sounds like a z:

nose	result	noise
present	partisan	tease
preside	resound	reserve

2. The light “hissy” sound is spelled with either ss or ce. Predictably, ss, like any proper doubled consonant, follows accented short vowels. Soft c is used anywhere else. (A soft c is one that is followed by e, i, or y).

notice	reticent	massive	bicycle
recent	gossip	russet	rejoice
essence	vessel	discuss	pass

3. The plural ending is always spelled with a single letter s unless you can hear a new syllable on the plural word. In that case, use -es:

loss, losses	bank, banks	twitch, twitches	
tree, trees	box, boxes	list, lists	judge, judges
